Platform Partner unstop

93 of every 100 leads never go live

Accel Business, Apr–Jun 2026: 5,000 leads → 368 activations.

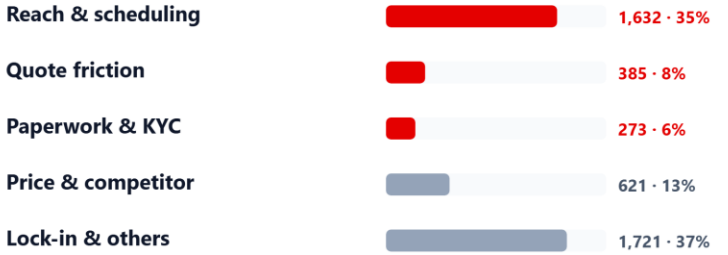

FUNNEL · COUNT AND % OF PREVIOUS STAGE

Biggest drop: needs assessed → quote accepted (–56%)

WHY 4,632 LEADS DROPPED

red = fixable by self-serve (49% · 2,290 leads)

17.6 days
to activate

3.0 calls
status chases

₹15,053
cost per activation

15.2%
6-month churn

About half of all drops (49% · 2,290 leads) are pure process friction — exactly what a self-serve digital journey removes.

Platform Partner unstop

03 · WHO FIRST · WHAT BUNDLE

Four segments, four bundles, one monthly price each

Live advisor output for an example of each: a 3-staff kirana, an 8-staff clinic, a 3-site restaurant chain, a 60-staff factory

WAVE 1 · SELF-SERVE

Micro retail & services

kirana · salon · pharmacy

54%	4.1%	22.7%
of leads	convert	6-mo churn

Vyapar Booster Pack

Biz 5G AirFiber 100	₹899
Cloud POS & billing	₹599
Business Postpaid 299	₹299
Cloud CCTV	₹199

₹1,996 /month

12 months · setup ₹4,300

→ Cheaper than today's ₹2,505 average

WAVE 1 · LAUNCH SEGMENT

Professional offices

clinic · CA firm · coaching

25%	11.1%	13.8%
of leads	convert	6-mo churn

Vyapar Professional Suite

Biz Fibre 300	₹1,499
Static IP	₹200
Cloud email × 8	₹1,000
Cloud backup 1 TB	₹499
Secure guest Wi-Fi	₹399

₹3,597 /month

12 months · setup ₹1,000

→ Best conversion + retention

WAVE 2 · DIGITAL + FIELD

Multi-site businesses

restaurant chain · 3–10 stores

15%	11.0%	10.8%
of leads	convert	6-mo churn

Vyapar Multi-Site Connect

Biz Fibre 300 × 3	₹4,497
4G/5G failover × 3	₹1,497
Managed SD-WAN	₹2,500
Cloud CCTV × 6	₹1,194
Toll-free number	₹1,500

₹11,188 /month

24 months · one bill for all sites

→ One bill and failover across all sites

WAVE 3 · FIELD-LED

Small manufacturers

auto-parts · textile unit

6%	12.8%	8.1%
of leads	convert	6-mo churn

Vyapar Industry Pro

Leased line 20 Mbps	₹8,000
Managed firewall	₹1,999
Machine IoT × 5	₹745
Cloud backup 1 TB	₹499

₹11,243 /month

24 months · 21-day line install

→ Lowest churn; needs a site survey

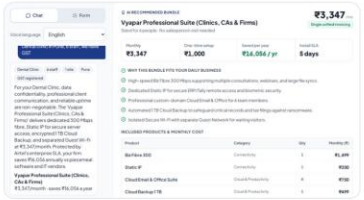

Launch with professional offices and micro retail — both can buy fully online; add-ons toggle in the quote.

From first question to a booked install in one session

Four real screens, captured from the live prototype, replace the field visit, the PDF quote and paper KYC.

Scan to try it live

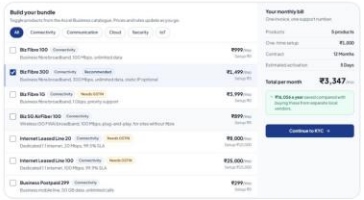

1 Advisor ~3 min

- Chat in Hindi, English + 6 languages
- Explains "why this bundle" plainly

TODAY ~~Sales visit after 3+ calls~~

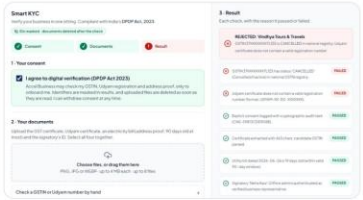

2 Quote & pay ~2 min

- One monthly price, no product codes
- Add-ons toggle; rules checked live

TODAY ~~PDF quote in 3–5 days~~

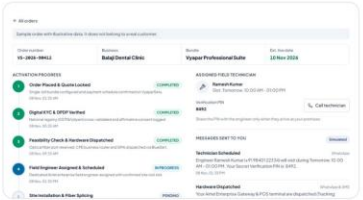

3 Smart KYC ~3 min

- GSTIN / Udyam lookup fills the form
- OCR checks and logged consent; DigiLocker and e-sign are next

TODAY ~~Paper copies, in person~~

4 Tracker 2–5 days

- 5 milestones, technician and slot
- WhatsApp updates, no chase calls

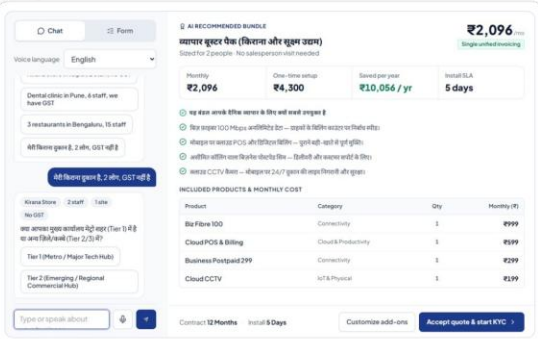

TODAY ~~3 chase calls per customer~~

Working prototype: 32 APIs · 19/19 advisor scenarios · 12/12 KYC specimens match the answer key · 927 leads ranked with reasons · voice input · partner back-office.

Platform Partner unstop

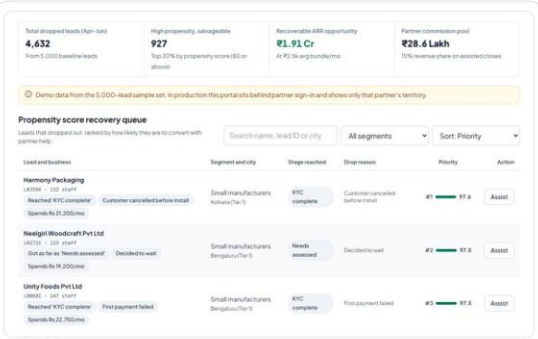

Beyond the brief: voice, a partner back-office and a lead score

All three stretch goals are built and live, and they keep the field force and partners in the loop.

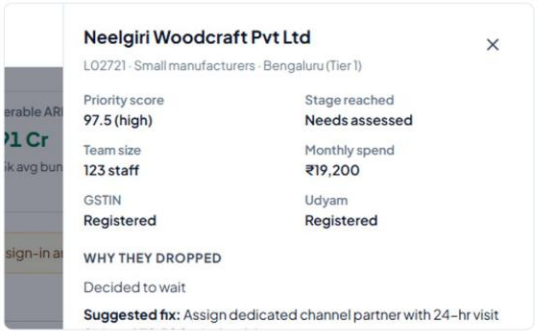

Advice in the owner's language

- Speak or type in English or हिंदी; the advisor picks out business type, size and city.
- The reply and the "why this bundle" reasons come back in the same language.

A ranked queue of dropped leads

- The score blends funnel stage, GSTIN, spend and team size, so the top leads rank apart (97.6, 97.5, 97.5 …).
- Each lead shows why it ranks: stage, drop reason, spend.

One click to a recovery plan

- The drawer gives the fix for that drop reason and a ready WhatsApp message in English and हिंदी.
- The partner sees what they earn: bounty plus 15% first-year revenue share.

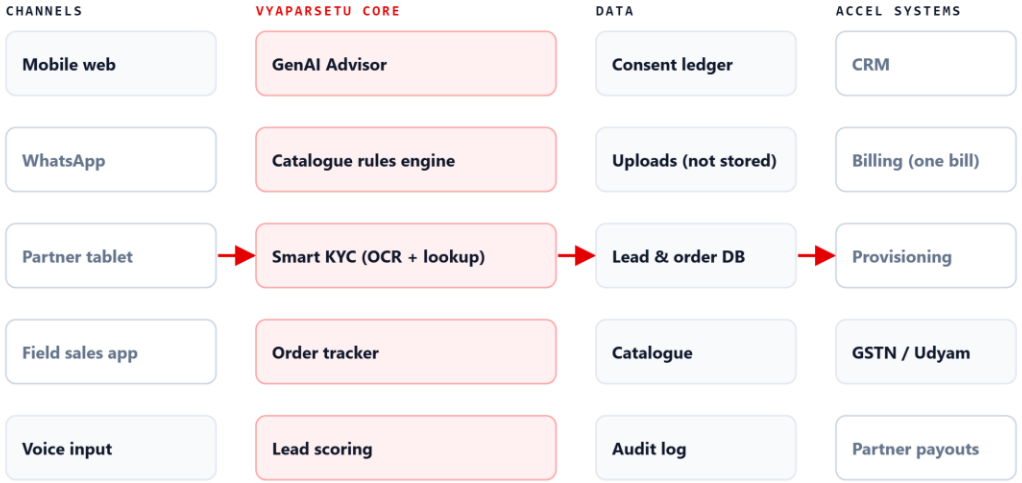

Partners and field sales gain, not lose: they get a ranked list of leads the advisor could not close, a message ready to send, and the commission shown up front.

Platform Partner unstop

The AI suggests, the rules engine decides, and privacy is built in

Main components and data flows, with DPDP Act 2023 controls.

SOLUTION ARCHITECTURE

Solid = built and running. Grey = simulated in the prototype or planned for rollout.

DPDP ACT, 2023 · BUILT INTO THE FLOW

- **Consent**
  Separate yes/no consent before any upload, logged with time
- **Purpose limitation**
  KYC data used only for activation and billing, not marketing
- **Data minimisation**
  Only needed fields kept; PAN digits in GSTIN are masked
- **Storage limitation**
  Uploaded images are deleted right after reading; scheduled 30-day purge is the production step

SMART KYC ON THE 12 SPECIMEN APPLICANTS

K01	K02	K03	K04	K05	K06
K07	K08	K09	K10	K11	K12

6 rejected, 6 cleared (matches the answer key): cancelled or bogus GSTIN · unreadable cert · missing Udyam · name mismatch · old address proof

The LLM never sets a price or approves KYC — catalogue rules and registry data do, with an audit trail.

Platform Partner unstop

Rivals sell one piece; we sell the whole setup in one sitting

Our assessment of public SMB offerings, Oct 2026. ● full ◐ partial ○ none. VyaparSetu column = designed scope; the prototype shows the first four rows.

	Jio Business	Tata Tele Business	Local ISP / reseller	Single-product apps (POS, email, CCTV)	VyaparSetu (Accel)
Buy online, no sales visit	◐	○	○	●	●
Connectivity + IT + security on one bill	◐	◐	○	○	●
Guided advice in the owner's language	○	○	◐	○	●
KYC done in minutes, paperless	◐	○	○	◐	●
Live order and install tracking	◐	○	○	◐	●
Local, in-person help when needed	◐	◐	●	○	●
Business SLA and single support number	◐	●	○	◐	●
Entry price for micro budgets	●	○	●	◐	◐

Nothing new to build

All 4 bundles come from the existing 25-product catalogue.

Partners stay in the loop

Self-serve sales are QR-tagged, so the local partner still earns.

Trust from verified data

GSTIN leads activate ~5× more; we verify them in seconds.

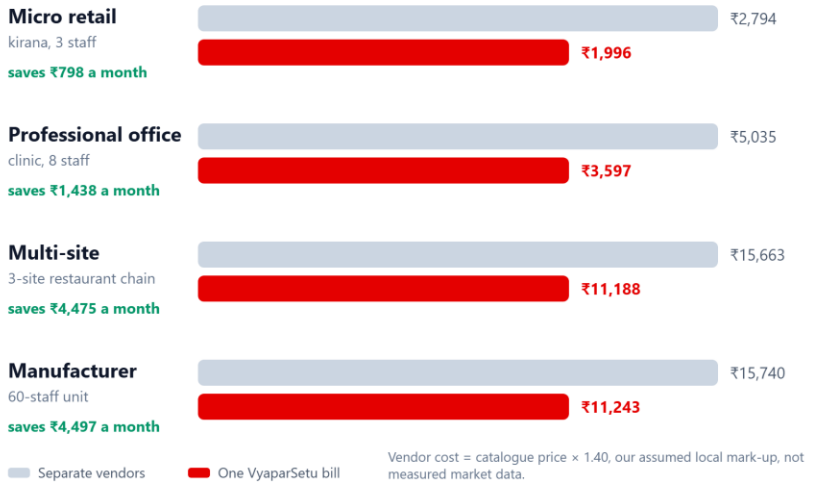

Our gap is price, not scope: one bill for everything the shop needs, from ₹1,996 a month.

Platform Partner unstop

Cheaper than piecemeal, and the risks are covered by rules, not by the AI

Monthly cost of the same setup: separate local vendors versus one VyaparSetu bill.

MONTHLY COST OF THE SAME SETUP

Vendor cost = catalogue price × 1.40, our assumed local mark-up, not measured market data.

MAIN RISKS AND WHAT COVERS THEM

The AI recommends the wrong thing

The rules engine checks every bundle against catalogue limits. The LLM never sets a price or approves KYC, and the advisor still works with the LLM switched off.

OCR misreads a document

Values are cross-checked with the GSTIN and Udyam registries. A failure rejects with the exact reason, and the owner can type the number by hand.

Partners see the app as a threat

QR-tagged sales pay the partner a 15% first-year revenue share, and the queue hands them the leads we could not close.

The owner is not comfortable with digital

Hindi chat and voice today; assisted mode on a partner tablet is the planned next step.

Personal data is misused

Consent before any upload, masked IDs, uploads deleted after reading. Production adds OTP login and encryption at rest.

Same shop, one bill: about 28% less than piecemeal vendors, and each major risk is covered by a rule, a registry check or a partner incentive.

Platform Partner unstop

Twice the activations from the same leads, at half the cost each

6-month targets against the Apr–Jun 2026 baseline.

METRIC	TODAY	6-MO TARGET	MAIN LEVER
Lead → activation	~~7.4%~~	**15%**	advisor + instant quote
Time to activate	~~17.6 d~~	**≤ 5 d**	paperless KYC
Status chase calls	~~3.0~~	**< 0.5**	tracker + WhatsApp
Cost per activation	~~₹15,053~~	**≤ ₹7,500**	fewer field visits
6-month churn	~~15.2%~~	**< 10%**	right-sized bundles

SAME 5,000 LEADS A QUARTER

368 → 750 activations

+₹26 L a month in new revenue (382 × ₹6,900 median bundle) ≈ **₹3.2 Cr a year** from each quarter's leads.

ROLLOUT

0–3 mo · Pilot
2 cities · Hindi/English

3–6 mo · Scale
Tier 1–2 · WhatsApp · 6 languages

6–12 mo · National
Multi-site, factory · voice

Field force and partners: they gain, not lose

- **Partners:** sell in assisted mode, earn on QR-tagged sales
- **Field sales:** call a ranked list of unclosed leads
- **Complex deals:** multi-site and factory stay field-led

Risks covered: AI errors → rules engine · channel conflict → QR commission · low digital comfort → assisted mode.
